

AAD-10

Peristaltic condensate pump

Into the box

Minipump
mm 95,5 x 114,8 x H 98,3
with power and alarm
cables 2 m

Sound level 21 dBA

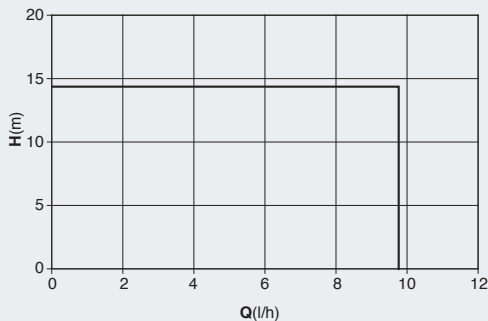

The pump is suitable for all condensate liquid from ventilation and air conditioning systems. It can operate also in the presence of dust, bacteria and residual smoke particles of dry condensate. This pump is particularly quiet, efficient and reliable.

The flexible condensate pipe is replaceable without special tools.

AUTOMATIC SWITCHING ON WITH THE REFRIGERATION UNIT

The pump is activated by the electrical connection with the compressor unit.

Code	Article	Description
SP0409AAD10	AAD-10	Peristaltic condensate pump

Technical data

- Max flow 10 l/h
- Max head 14m
- Max suction 2m
- Voltage..... 230V - 50 Hz
- Max rated current 0,06 A
- Protection class IP52
- Power cable 2m
- Rubber holder connections..... 6mm
- Dimensions..... 95,5x114,8x98,3mm
- Certification..... CE
- RoHS 2 compliant

Example of installation

1 - The pump is installed in a false ceiling near the refrigeration unit. The peristaltic pump AAD-10 is connected to the condensate collection tank of the air conditioning system. The switching on is through the electrical connection with the compressor unit.
