

# NTH 330 XPH

Neotech Technology

## Acid condensate pump with neutralizer

### Into the box

Condensate pump  
mm 330 x 104 x H 134  
with power cable 2 m and  
alarm

Neutralizer granular refill  
Neutralkit

Connecting pipe  
6 mt x Ø 8 mm

Inlet pipe adapter  
pipe Ø 40 mm - Ø 25 mm

Cable tie for the adaptor

Vibration damper tape  
for side or vertical position

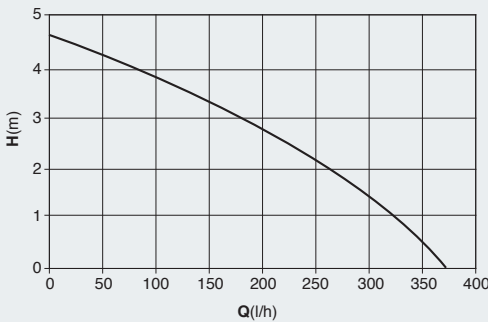

### Max 50 kW Sound level 45 dBA

The pump is designed and built to recover and discharge the condensate coming from the boilers.

The monobloc solution with neutralizer is suitable for all kind of installations, overall when it is not possible to discharge for gravity. The replacement of neutralizer is easy and fast.

Code	Article	Description
SP04098881	NTH 330 XPH	Condensate pump
SPN0409005	NEUTRALKIT05	Granular Neutralkit

### Technical data

- Max flow.....370 l/h
- Max head.....4,6m
- Voltage.....230V-50Hz
- Max rated current .....0,75 A
- Alarm contacts.....NC-NA 5A Resistive 250V
- Weight.....3,0 kg
- Tank volume.....0,8 l
- Nonreturnvalveincluded.....Ø8mm
- Power cable with Schuko plug and alarm cable 2m
- Acid condensate.....min pH 2,8
- Screws, bolts, nuts ..... stainless steel 304
- Motor plate support.....AISI 304
- Protection class.....IP20
- Certification.....CE
- RoHS 2 compliant

### Example of installation

1-2  
wall-mounted  
or floor standing  
boilers
