

EASY CONDENSATE ECO

Acid condensate system

Into the box

Acid condensate system
mm 124 x 77 x H 157
with pump and tank.
Weight 1,4 kg

Inlet straight connection

Inlet elbow 90° connection

Outlet straight connection

Outlet elbow 90° connection

Cable tie

Delivery pipe
2 mt x Ø 6 mm

Max 34 kW
Sound level 21 dBA

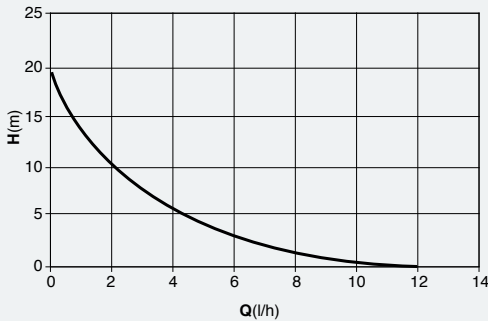

EASY CONDENSATE ECO is a compact system to recover and discharge the acid condensate of gas boiler.

The material quality allows the use in the heating installation.

The little dimensions and his compactness allows the easy installation.

The system include san extremely quiet pump and tank.

Code	Article	Description
SP04099997	EASY CONDENSATE ECO	Acid condensate system with pump and tank

Technical data

- Max flow.....12 l/h
- Max suction.....0 m
- Max head.....19 m
- Voltage.....230V - 50Hz
- Absorption max.....19 W
- Inlet filter stainless steel.....Ø 0,2 mm
- Protection class.....IP50
- Operation.....not continuous
- Max temperature condensate.....60°C
- PH condensate.....+ 2,7
- Power cable.....2 m
- Inlet pipeØ 15 mm
- Outlet pipeØ 6 mm
- Certification.....CE
- RoHS 2 compliant

LED info system:

Example of installation

1-2

Inside and outside the boiler
