

# EASY CONDENSATE

Acid condensate system

## Interno box

Acid condensate system  
mm 124 x 77 x H 157  
with pump and tank.  
Weight 1,4 kg

Inlet straight connection

Inlet elbow 90° connection

Outlet straight connection

Outlet elbow 90° connection

Cable tie

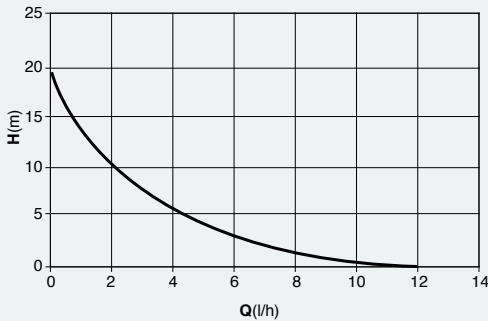

Delivery pipe  
2 mt x Ø 6 mm

**EASY CONDENSATE** is a compact system to recover and discharge the acid condensate of gas boiler. The material quality allows the use in the heating installation. The little dimensions and his compactness allows the easy installation. The system include san extremely quiet pump and tank.

Code	Article	Description
SP04095557	EASY CONDENSATE	Acid condensate system with pump and tank

## Specifiche tecniche pompa

- Max flow.....12 l/h
- Max suction.....0 m
- Max head.....19 m
- Voltage.....230V - 50Hz
- Max absorption.....19 W
- Inlet filter stainless steel.....Ø 0,2 mm
- Protection class.....IP50
- Operation.....not continuous
- Max temperature condensate.....60°C
- PH condensate.....+ 2,7
- Power cable.....2 m
- Inlet pipe .....Ø 15 mm
- Outlet pipe .....Ø 6 mm
- Certification.....CE
- RoHS 2 compliant

LED info system:

- Power (Green LED)
- Pump operation (Yellow LED)
- Alarm (Red LED)

## Example of installation

1-2

Inside and outside the boiler
