STEELPUMPS CLIMA DIVISION

 **Condensate mini pumps**

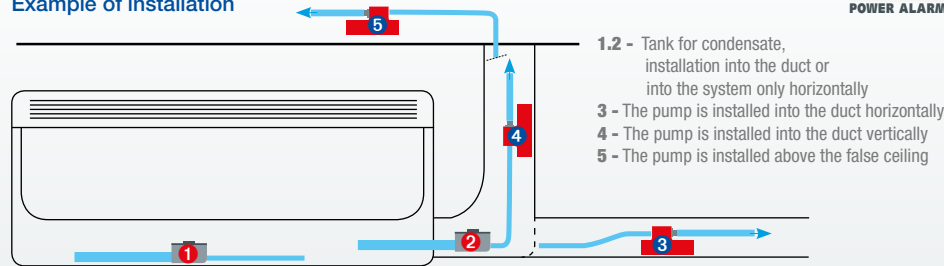

NTH / NTH SLIM The pump and the tank are designed to collect and discharge the condensate. The small dimensions and the fast wiring make the installation easy and flexible. The duct can be installed on the left or on the right of the air-conditioning system.

**Max 15 kW
Sound level 21 dBA**

Example of installation

 **Condensate pump and Acid condensate neutralizers**

Example of installation

1.2 - Wall-mounted or floor standing boilers

NTH 330 XPH The pump is designed and built to recover and discharge the condensate from boilers with a built-in neutralizer.

**Max 50 kW
Sound level 45 dBA**

PH SERIES Acid condensate neutralizers from 350 to 3000 kW

   **Condensate pumps**

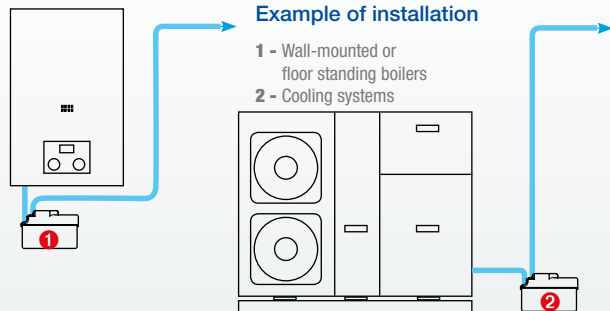

NTH WG6 SERIES

Condensate pumps suitable for heating or air conditioning applications.

Example of installation

1 - Wall-mounted or floor standing boilers
2 - Cooling systems

**Max 287 kW
Sound level 44 dBA**

 **Boiler Kit**

THREEWARM28

KIT for continuous and complete protection of the sanitary, heating and condensate drainage circuits.

DOSY-PHOS Polyphosphate dosing unit
CLEANY Magnetic filter dirt separator
PH-MINI Acid condensate neutralizer

Example of installation

Possibility of installing the devices either horizontally or vertically, or according to water flow, such as the DOSY-PHOS dispenser
